PURPOSE OF THE REGISTER

The purpose of this register is to save client related information, to make any potential communication possible and to maintain the relationship with the client.

The data is not used to automated decision-making or profiling.

CONTENTS OF THE REGISTER

First and Last Names
Contact information: phone number, email, address and postal code
Any potential order information
For corporate clients: name of the corporation and business ID

REGISTER DATA SOURCE

The client gives the information during the order and/or purchase of any service.
This information may be supplemented by publicly available sources of information.

GIVING AWAY STORED INFORMATION

The data is processed trustworthily and won't be given away of the keeper of the register or its technical service provider except as required by law. The information will not be transferred outside European Union or European economy areas.

REGISTER PROTECTION

We use SSL security technology to protect the information at our webpage. Register databases are stored on a server that is protected by firewall and other generally required technical means.

RIGHTS OF THE REGISTERED PERSON

Any registered person has right to:
Check what information is stored about them.
Correct the information.
Request to erasure the data.

Restrict the data processed.

Object.

Move data from one system to another.

The requests must be sent in writing to the keeper of the register. The keeper of the register may, where appropriate, request the applicant to prove his identity.

COOKIES

This website uses cookies to collect Google Analytics statistics that are used to improve the service. The information stored on cookies and analytics services includes the browsing behavior of our web pages (eg which tabs you have viewed and how long you stay at our pages), what browser you are using, your screen resolution and operating system and the IP address of your computer.

The visitor can disallow cookies in their browser settings, so that no such data will be collected. By doing so, the visitor agrees to some aspects of the websites not working technically the way they should be working.
